Angular | Angular Material | TailWind | Bootstrap | Kendo | CSS | SCSS | JavaScript | HTML | Typescript | Xamarin iOS | C# | Android

Work Experience - Senior Software Engineer at Beinex (Mar-2024 – Jul-2024)

PROJECTS:

Aurex.ai : Aurex™ is a unique plug-and-play ecosystem that gives you a greater degree of assurance over your complex, multifaceted organization, employing Governance, Risk, Compliance, Analytics, Business Continuity Management, and ESG capabilities. The core purpose of Aurex™ is to help identify organizational risks proactively and in real-time, report to your enterprise's Board and Management for mitigation, and ensure Business Continuity Management and ESG alignment. It achieves this by breaking organizational silos, ensuring that decision-makers in your firm get the right data at the right time to make informed decisions and address sustainability and resilience concerns effectively.

- Leading the development efforts for Aurex.ai, ensuring alignment with project goals and client requirements.
- Collaborating with cross-functional teams and management to investigate various scenarios and solutions.
- Creating reusable components and integrating Angular code and Rest service
- Incorporating third-party APIs into the ecosystem for data exchange and real-time updates
- Developing a modular, single-page web application in Angular that incorporates responsive design principles
- Conducting thorough testing and debugging of UI components to identify and resolve issues
- Assisting in the formulation of deployment strategies and contributing insights on best practices

Work Experience - Senior UI Developer at Cyspan Systems Private Limited (Oct 2019 – March 2024)

PROJECTS:

Visuant : A comprehensive Company Management App with task tracking, department oversight, dynamic dashboards, and insightful graphs Development of UI components.

- Leading the UI module of the project ensuring successful development and delivery.
- Engaged in direct client interactions to comprehensively gather project requirements, ensuring alignment with business objectives.
